At Stetson, we take pride in offering continuing legal education programs that exceed expectations. Our CLE curriculum year after year focuses on the cutting-edge legal issues practicing attorneys need and want. The attention to quality is seen in every detail — from a list of attendees and name badges provided to our registrants, to complete program materials, even to the bowl of candy at the registration desk. In the coming year, we plan to offer several programs, including one to be held in York, England. Please visit our Web site at www.law.stetson.edu/cle for complete details.
