Consent for Media Release
(Bring this form to registration)

Throughout the duration of the camp, pictures and video may be taken. This is mainly for promotion of the workshop for the following year. However, the possibility of a local newspaper or other form of journalist visiting campus exists. In addition, the students are recorded on the final concert. Stetson University limits the distribution of any form of media pictures, video, or recording for any of their Summer Conferences. These distributions include but are not limited to:

Workshop brochures for the following year

The School of Music website under “Special Programs” advertising all summer music workshops

The Deland Beacon, The Daytona Beach News Journal, and/or The Orlando Sentinel

A photo CD, sent to students who choose to purchase the photos

I have read and fully understand the use and possibilities of media released from the Stetson University Summer Double Reed Workshop. By signing this form, I allow this media to be used for the purposes of future promotion of the Stetson University Double Reed Workshop.
