

# Learning Activity Kits

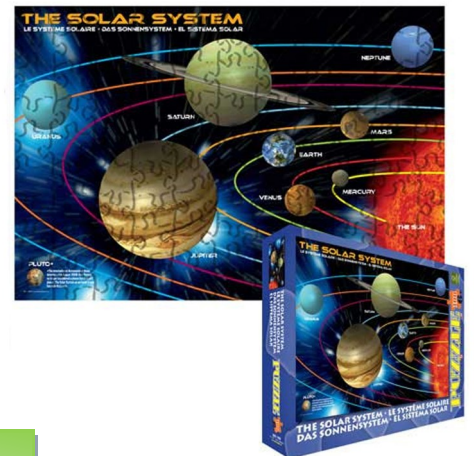

1. Build & erupt your own volcano — witness the power of vinegar & baking soda!
2. Crystals — Grow beautiful, snowy-white crystals from an ordinary looking rock
3. Dissect an owl pellet — never has puke been so interesting...
4. Hook up your own solar engine — just add sun. Great for science projects!

## 100 Pc. Puzzles

Made in Canada

## Fun Stuff

5. Shark tooth necklaces — fossils make cool jewelry
6. Glux — stretches like rubber, bounces like a ball, tears like paper
7. Instant Winter — who says we can't have snow in Florida! Perfect for yetis
8. TV Rock — Tune in to Ulexite, a rock that naturally projects images for a cool fiber-optic effect
