WEDS APRIL 6, 1030 A.M. – 1130 A.M.
FACULTY LOUNGE

How can an assignment be built in stages? Sequencing the major goals of a learning project helps students give you what you want. Bring your examples of assignments to trade ideas about assignment design and understand the impact of visuals. Light refreshments provided.

Next Time: Writing Assignments for Better Learning. Bring your experiences and talk with experienced faculty about using brief and extended writing situations to make sure students get the most from the material.
