Stetson University provides a unique experience allowing students to bring their animals from home or register to be a service dog trainer within our designated animal friendly residential facilities. Having animals on campus allows students to bring a piece of home to campus, easing one’s transition and overall experience. It is our goal to provide a safe environment for members of the Stetson community, and to protect, maintain and regulate animal ownership privilege enjoyed by residential members of the community. It is for this reason that policy and guidelines for ownership have been created with the assistance of students to abide by, and enforce, the policy. The opportunity to have an animal on campus is a privilege not a right.

We believe that the animal housing option contributes to the overall wellbeing of the on campus student population while allowing a student in residence an eased transition coming from home to living at Stetson. This community focuses on creating a home away from home feeling for students with animals while helping them grow in the areas of accountability, routine, and personal and social responsibility. Students with animals can also benefit emotionally, psychologically and socially; providing experiences that help them relieve stress, lift one’s mood and provide a sense of feeling needed. Our animals in housing program began in 2010 with 9 dogs, 10 cats and 1 guinea pig. The success of this program has allowed the Department of Housing and Residential Life to expand animal friendly facilities from one pet hall to three: University Hall, University Village - Building 300 and Stetson Cove Apartments.

The purpose of this guide is to provide interested students with the guidelines and policies for the Animal Friendly Housing communities. Students are responsible for following the procedures in order to be considered for approval. No animal should be brought to campus without approval from the Department of Housing and Residential Life (HRL). It is the responsibility of the animal owner to value the rights of all students as well as the beauty of our campus. We encourage every animal owner to consider carefully the advantages and disadvantages of the campus environment for their individual animal.

What is an Animal?
Animals are considered by the Department of Housing and Residential Life to fall under the following four categories: Pets, Emotional Support/Companion/Comfort Animals, Service Dogs in Training, and Service Animals. At this time, visiting animals are not allowed in residential facilities under any circumstances.

Approved Pets
The Department of Housing and Residential Life defines approved campus animals to include:

- Fish (permitted in all halls - no larger than 10-gallon size tank);
- Small caged animal (rabbits, hamsters, gerbils, chinchillas, guinea pigs, rats, mice, hedgehogs);
- Cats; and
- Dogs (certain dog breeds and sizes only).

Canine Weight and Breed Restrictions
Dogs may not exceed fifty pounds in weight when fully grown. Pit bulls, Staffordshire Bull Terriers, Rottweiler, Chows, Dobermans, Akitas, and wolf breeds/hybrids, or any mix containing these, or any dogs that display aggressive behavior will not be approved and are not allowed on campus at any time. Stetson University, at its sole discretion, except as required by law, retains the right to deny any pet or dog breed to reside on campus to ensure that safety of the community.
**HOW TO APPLY**

All students must apply yearly in [Housing Central](#) in order to be considered for approval to bring an animal to campus. The application process does not guarantee approval for the animal to live on campus with the student.

Students that do not have animals can sign up to live in the Animal Friendly Housing. However, if the need for animal rooms becomes necessary, HRL reserves the right to relocate a student living in Animal Friendly Housing without an animal to another available space on campus. Each Animal Friendly Housing resident will need to complete all paperwork necessary with the HRL by the designated move in date. Animal Friendly Housing, like all requested assignments, is not guaranteed; limitations exist on a campus even as we continually grow to accommodate the growing desire for such housing.

Students wishing to bring fish to campus do not need to apply.

Any cat or dog living on campus has to be at least 1-year-old by August 1 of the academic year in which one is applying and has to have lived with the student's family for at least one year prior to living on campus. **The acquisition of any dog/cat, purchased, fostered, or stray, while a student at Stetson University, is prohibited in our Animal Friendly Housing areas.** Other types of animals may be approved on a case by case basis by the Department of Housing & Residential Life.

**Owners who fail to complete the application process for their animal but still bring their animal on campus will be subject to a $500 fine.** If a deadline is missed the owner must make an appointment with the Residential Life Coordinator of their area in order to be considered for an extension.

**New Student Applicants**

Students new at Stetson University must have a completed Housing Application on file, designating that they desire to live in the Animal Friendly Housing (University Hall, Stetson Cove, or the 300 building of UVA). Students will then complete the New Student Animal Application on their core page in Housing Central when they become available February 1. This application will require the student to attached a photo, veterinary proof of one-year ownership, and answer several questions relationship to their ability to care for an animal while living on campus. **Should this form not appear in Housing Central, please contact our main office.**

**Current Student Applicant**

Current students who have had an approved animal on campus or desire to bring an animal to campus, must apply when housing applications become available starting February 1. Current students will complete the Returning Student Animal Application found on their core page in Housing Central. This application will require the student to attached a photo, proof of one-year ownership, and answer several questions relationship to their ability to care for an animal while living on campus. **Should this form not appear in Housing Central, please contact our main office.**

All current students wishing to bring an animal to campus must go through the standard housing room selection procedure during the “Housing Room Selection Period”. Room selection information will be communicated by the department via email and the housing website. Students wishing to apply must select to reside in an animal friendly housing option.
REGISTRATION

New and current students after receiving written approval to have an animal, and have opted to live in Animal Friendly Housing, will have the Animal Registration form become live on their Housing Central account.

A complete animal registration will include current copies of the following:

- Clear photo of the animal (full body)
- Altering (Spay or Neuter) Certificate (canine and feline only)
- Record of Animal Core Vaccinations: Rabies & DAPP
  - If you have a canine, you will also need to provide records of Bordatella & Heartworm Prevention
  - If you have a feline, we suggest that you provide record of Feline Leukemia
- Proof of flea prevention/maintenance
- Record of canine obedience training (those who do not possess this will have to accept the waiver in the registration form)
- Copy of animal insurance policy (strongly encouraged)
- Copy of yearly pet licensing information with the City of DeLand (for dog/cat)
- $50 per semester fee (charged to student account for support of Animal Friendly communities)

Students will also be required to agree to the Agreement, Risk Acknowledgement and Liability Waiver found in the registration form. (See Resources Section)

To send updated scanned copies of the above documents email them to reslife@stetson.edu with the subject “Animal Housing, YOUR LAST NAME” (ex. Animal Housing, Wilson). Students may also drop off copies of the documents to the HRL Office in University Hall on the corner of Woodland and Pennsylvania.

Registration Approval
Upon completion and submission of the requested documents, students will receive an approval/denial email from HRL prior to their move in date. No animal should be brought to campus without receiving approval via email. Please note that animal approvals are for one academic year.

City of Deland Pet Licensing Instructions
All dogs and cats in the unincorporated Volusia County are required to be licensed. You are responsible for registering your animal with the City of DeLand. The process for obtaining a license is as follows:

Bring the rabies certification, vaccinations and altering records for your animal to City Hall (120 S. Florida Ave – 1st Floor). They will then give you the licensing information and city tags. License for altered animals are $4 a year.

ROOM CHANGE/LEAVING HOUSING

Room Changes
Should a resident wish to change rooms outside of an Animal Friendly designated facility their application to have an animal in housing will be voided and the animal will be required to leave campus. Residents wishing to keep their animal on campus will only be able to reside within one of the animal friendly designate residential facilities.
Early Move Out/Breaking the Housing Living Agreement
Any student that wishes to or is asked to leave an Animal Friendly designated facility will not be reimbursed for any animal registration fees assessed. Students who are relocated to a non-animal approved residential facility will be required to take their animal home. Students are responsible for the damage or cleaning that results from themselves or their animals. All fees for damages and cleaning will appear on the student account and will be billed according to the damage and cleaning needed.

OWNER EXPECTATIONS

Before Arrival to Campus
- All dogs and cats must be housebroken before arriving on campus.
- Upon residing in the Animal Friendly residence, you agree to review and abide by all policies and procedures outlined in this Animal Policy and Guidebook, as well as those terms noted in the Animal Friendly Housing Agreement and Liability Waiver.
- All owners must have all required registration paperwork on file prior to bringing the animal to campus.

While on Campus
- Regardless of the circumstances, the animal owner/trainer is ultimately responsible for the actions of the animal.
- All owners/trainers must display their approved animal placard in a visible location on the exterior entrance to their living space.
- All animals must live with their owners/trainers.
- All owners are responsible for keeping up to date registration records on file with HRL.
- All animal owners/trainers and their roommates must complete an Animal Friendly roommate agreement.
- Owners/trainers must keep their dogs and small mammals (except felines) properly crated while they are away from the room. Animals not properly crated will delay Facilities staff from responding to requested and scheduled maintenance in a timely manner and provide unnecessary issues for emergency personnel.
- Owners/trainers must clean up after their animals.
- Abandonment, neglect, or mistreatment of any animal by any member of Stetson University will not be tolerated. No warnings will be issued. If there is abuse, it will result in either the animal being taken away from the owner or measures taken to prevent contact with the person responsible for the abuse. These actions will be subject to the discretion of the Office of Community Standards. Owner negligence or mistreatment of an animal will not be tolerated.
- No animal is allowed to become a disruption to the members of the Stetson University community. A disruption is defined as, but not limited to, excessive noise, physical harm to humans or other animals, destruction of property, and acts otherwise deemed by the Office of Community Standards. Animals attacking other animals or humans will not be tolerated. The matter will be referred to Office of Community Standards.
- Should a student be unavailable to care for their animals the University will contact their listed emergency contact to provide care. Should this person be uninterested or unreachable, HRL may need to release the animal to a shelter.
• All animals are only allowed inside Animal Housing facilities. Approved animals are prohibited to be in or visit other buildings on campus unless otherwise authorized.

• HRL Staff will conduct semesterly animal inspections of residential rooms to ensure that the animal owner is maintaining healthy and appropriate animal care. Failure to maintain upkeep of an animal or living space may result in removal of animal from campus and/or the assessment of room cleaning charges.

Animal Owner/Animal Trainer Probation
An animal owner or animal trainer, in most cases, will be issued a verbal warning for a first time violation. Further violation, will result in an animal owner being placed on animal probation. Written notification of animal probations will be issued for the following reasons:

• If a student brings an animal without completing an animal application and receiving approval. The animal must go through the application process within the dates communicated on the website and via email.

• If an owner is found to be mistreating or negligent of their animal care responsibilities.

• If an owner or animal not be in compliance with the policies and guidelines set within this guide or the university’s Animal on Campus policy.

• The HRL department reserves the right to place an owner on probation for any other action not listed above.

If HRL is notified of any mistreatment or negligence of an animal, or the conditions of the student's specific probation are broken, the Office of Community Standards will look into the situation and act appropriately. If the animal owner is found responsible, the owner's parents/guardians will be notified and the student will have one week to remove the animal from campus. If after one week, the animal is still residing on campus, a $500 fine will be issued to the student and HRL reserves the right to remove the animal by other means as deemed necessary.

OWNERSHIP & ANIMAL CARE

It is the owner's sole responsibility to take care of their animals. It is against Florida Law to abandon or neglect their animal. If there are any issues, you may be asked to leave the Animal Friendly Housing, sent through the Office of Community Standards, and/or reported to the local police.

Pet Waste
It is the owner’s responsibility to clean up after their animal. Owner’s must exercise proper care and control of their animal which means cleaning up their animal’s waste material and disposing of it properly. Pet waste bag stations are located in and around all animal housing facilities. Students are required to have pet waste or plastic bags with them at all times and dispose of them in any green dumpster. It is an expectation that animals that utilize outdoor methods for the bathroom do not urinate on any electrical boxes or HVAC equipment. Litterboxes must be cleaned regularly and maintained to ensure reduced odors. Owners are required to dispose of old litter in a sealed bag or container in the exterior dumpsters immediately. Litter boxes should be placed on mats so that feces and urine are not tracked onto carpeted surfaces. Residents are responsible for disposing all disposable cage or crate bedding in the exterior dumpsters. It is the owner's responsibility to change and maintenance the appropriate upkeep for their animal.
Cage/Crate, Room & Animal Maintenance
Animal owners must perform regular room and crate cleaning in addition to groom the animal to prevent odor, if applicable. Students can use the laundry room basin located in University Hall, Stetson Cove, or in the University Village Apartments to clean your animals.

If a room smells due to an animal, the occupant will be asked by Stetson University officials to clean the room. Students should expect to clean their room more often than other residential spaces. Students should acknowledge that an animal in a residential space will create more of a mess/scent than it would within a house. We recommend using animal cleaners which may be purchased from local animal stores. Animal checks will be conducted throughout the academic year in order to ensure proper care of animals.

Animal Roommate Agreements
While many roommates live successfully in their assigned spaces with no major conflicts adding in an animal can at times introduce unanticipated challenges or disagreements to arise. It is important for students to openly communicate the expectations of ownership and care of the animal. The university expects that the approved animal owner is in full responsibility of the animal at all times while on campus or in the residence halls.

To ensure that a space for this conversation happens each resident will have the opportunity, within the first two weeks of moving in, to create an Animal Roommate/Apartment-mate Agreement with the other resident(s) with whom they will be living. The Animal Roommate/Apartment-mate Agreement form allows all residents to share their thoughts and develop individual/mutual expectations about acceptable and unacceptable issues associated with living with an animal. Residents should request a meeting with their RA and revise their original agreement if changes are needed during the year.

Animal Inspections
HRL Staff will be performing animal inspections each semester of residential rooms to ensure that an owner is in compliance with the animal friendly housing policies and guidelines. This includes reviewing all corresponding documentation, the animal residing in the room assignment is the approved animal, the owner is maintaining appropriate animal care, the room is free of damage and that the environment meets all health and safety conditions. Failure to maintain upkeep of an animal or living space may result in removal of animal from campus and/or the assessment of room cleaning charges.

Animal owners are responsible for animal proofing their residential space, especially if young animals are present to reduce university property damage (cover/protect all garbage cans, remove toxic items from animal’s reach, etc.)

University Holidays & Breaks Animal Care
During any university holiday or break in which the animal owner will be away from campus (Fall Break, Thanksgiving, Spring Holiday or Summer Break), it is expected that the animal owner will remove the animal from campus. There will be no exception to this rule, and animal owners found in non-compliance will be subject to disciplinary action and may be placed on animal probation.

In the Case of a Hurricane
Disasters are diverse and devastating to everyone involved – including animals. Hurricanes, floods, tornadoes, train derailments and explosions can leave pets helpless and homeless. Planning can save the lives of beloved companion animals.
Tips for planning for an emergency campus evacuation:

- Ask dependable friends or relatives who live away from an at-risk area if you and your animal can stay with them during an emergency.
- Stock an animal emergency supply kit.
- Mark all your animal’s belongings with identification.
- Keep all animals’ paperwork in one central place including current vaccinations, identification, DeLand license and rabies tags.

Animal Friendly Emergency Shelters
Stetson University does not endorse these shelters in any way, this list is only meant to be a resource for students.

- Volusia County Fairgrounds 3150 E SR 44, Deland
  - Transportation to the fairgrounds is provided at regular bus stops if animals are in carriers. Pets must have ID, current license and rabies tags affixed to collar. Each animal must also have proof of vaccinations and be confined to a carrier or crate.
- Hinson Middle School, 1860 N. Clyde Morris Blvd, Daytona Beach
- Palm Terrace Elementary, 1825 Dunn Avenue, Daytona Beach

Student Personal Property and Insurance Information
HRL also recommends that students with animals have insurance covering any damages, incidents or accidents that the animal may be involved in. While it is not required it is strongly recommended. The University’s property insurance only covers property that is owned by the University. It is highly recommended that students insure their own personal property via their parent’s homeowner’s insurance or a renter’s/tenant’s insurance policy. If you plan to insure under your parent’s homeowner’s policy, it is important to confirm with their homeowner’s insurance carrier that student’s property (including computers and other electronics) will be fully covered for loss while housed outside of the family dwelling, and inquire about the deductible and coverage limits.

As stated in the housing agreement, the University assumes no legal obligation to pay for loss of or damage to items of student’s personal property occurring on campus or in its buildings or storage areas. University has delivered the contracted premises in good condition. Residents accepts them in such condition and agrees to keep them in such condition during the term of this agreement at their expense and to return them to University in the same condition at the termination of the agreement, normal decay, wear and tear excepted.

**FREQUENTLY ASKED QUESTIONS**

**What is an Animal?**
Animals are considered by the Department of Housing and Residential Life to fall under the following four categories: Pets, Emotional Support/Companion/Comfort Animals, Service Dogs in Training, and Service Animals.

**What buildings are Animal Friendly?**
The designated Animal Friendly halls are University Hall, University Village Building 300 Apartments and Stetson Cove Apartments. Only approved animals are permitted to reside within this community.

**How old must my animal be to live on campus?**
Both dogs and cats must be at least one-year-old and have lived with the student or student’s family for at least one year by August 1 of the application year. Small caged animals must live with the student or student’s family for at least 3 months by August 1 of the application year.

**What is the weight limit for dogs living on campus?**
Fifty pounds is the maximum weight allowed for a dog on campus. Some exceptions apply.

**What vaccinations are required for my animal to be approved to come to campus?**
It is expected for animal owners to consult with their veterinarian when it comes to what vaccination and protection is needed for residing in a new environment.

**Can I have an animal visit?**
Non-approved animals are not permitted in any residence halls including Animal Friendly facilities.

**How much does it cost to register an animal on campus?**
The cost is $50 per semester.

**Can I have a pet sitter for my animal or be a pet sitter for someone else’s animal?**
As a responsible pet owner, students are expected to create a schedule that allows for flexibility to ensure that they are not away from their animal for an extended period of time. If a student needs to make arrangements to be away from their room for an extended period of time, it is expected for the student to make arrangements to travel with the animal or board the animal. Students are not allowed to give another student access to their room or have another student sit for their animal in their residence.

**How many animals can I have?**
One animal is permitted per bedroom in the designated Animal Friendly Housing areas. University Hall residents may have one animal per room (*some exceptions apply*) and University Village Building 300, Stetson Cove residents may have 1 animal per resident/bedroom. Residents found with more than the approved amount of animals will be charged $150 fine, will be asked to remove the non-approved animal immediately and will be referred to the Office of Community Standards. Pregnant animals will not be approved to live on campus. We encourage that you make sure this does not happen while the animal is living on campus. Should an animal become pregnant the mother and the litter will not be permitted to stay on campus.

**Why do I need to crate my dog?**
Crating insures that animals won’t do damage to rooms while the owner is unable to supervise their animals. An animal being crated allows for facilities workers/emergency personnel/University officials to enter rooms without the animal delaying their work. If an animal does not respond well to crating perhaps you may want to reconsider bringing the animal to campus. At this time, cats do not need to be crated. When any facilities/emergency
personnel/University officials need to enter a space where an animal is not properly crated they are not responsible for something that may happen with an animal (e.g. get out of room, run away, etc.).

**Does my cat or dog need to be on a leash?**
Cats and dogs must be on a lease at all times while on campus.

**How do I apply for an Emotional Support/Companion/Comfort Animal?**
Students wishing to bring an emotional support/companion/comfort animal to campus must apply by completing the Accommodations form found in Housing Central. Applications must include a letter of prescription by a licensed mental health professional stating that the individual has a need to bring the animal to campus with the purpose of alleviating one or more identified symptoms or effects of that individual’s disability. As specified in the Americans with Disabilities Act (ADA), a comfort animal is not a service or therapy animal. Students should be aware that approved emotional support/companion/comfort animals are only permitted within the approved student’s on campus housing assignment. Once approved, students must complete the animal registration form found in Housing Central providing all required documents before the animal can come to campus.

**How do I apply for a service animal in training?**
Service animals that are being trained are not considered pets and thus students must first apply. Students interested in training these animals will need to go through an application process with the HRL Office, Center for Community Engagement, and the partner organization. Applications are available through the HRL Office.

**What do I do if my animal has fleas?**
Students are expected to maintain flea prevention year round. If an animal is found to have fleas, it is expected for the owner to submit a service request to SchoolDude found at http://www.stetson.edu/administration/facilities/. Should flea treatment become necessary, the animal owner will be responsible for the cost of treatment, resulting in a charge to the student’s account (approximately $30 for shared room and $50 for an apartment per visit). Students who do not address a flea problem immediately will be referred to the Office of Community Standards and may risk loss of animal privileges on campus.

**What do I do if my animal goes missing?**
An animal going missing can be a challenging and difficult circumstance. To help students manage should such events occur, we want to ensure that they know their resources. Contact Public Safety immediately. Public Safety at that time will make a report which will notify important university officials to be away of the missing animal report. Students may also bring flyers to the Hub in the CUB to have them posted on the bulletin boards in the CUB. In addition, Volusia County Animal Services utilizes the media outlet of Facebook to provide a forum for people to connect if they have lost or found a pet. After someone has “liked” the page you can place a description and photo of a missing pet, give details on the location where it was lost or found, and reunite missing pets with their owners. In addition to this resource there is also a Lost Pets of Volusia and Flagler County page as well.

These forums are internet tools to aid in locating a missing pet; it is not a substitute for looking for your pet in person. Here you can place a description and photo of a missing pet, give details on the location where it was lost or found, and reunite missing pets with their owners. If you are looking for your lost pet, please be sure to visit Halifax Humane Society 386-274-4703 or Southeast Volusia Humane Society 386-428-9860 in person.

**My animal passed away, what should I do?**
Stetson University has an on-site Pest Control support specialist. By submitting a School Dude work request should your animal pass away, they will assist you in how to dispose of it while on campus should you not be able to take it home.

Two other local resources that will also support a student if an animal passes away are:

- **Animal Control** – 386-626-7400 (Available Monday to Friday 8AM to 5 PM)
- **SAFE Animal Removal** – 407-395-4256

**How do I report an animal complaint?**

Any member of the Stetson University community may file a complaint with HRL. The complaint may address any form of misconduct or rule violation on the part of the animal or owner. Animal complaints should be discussed with a resident assistant who will then have a conversation with their Residential Life Coordinator. You may be asked to file the complaint on www.stetson.edu/reportit. If any Stetson student, faculty, or staff member observes a violation of the animal policy, it should be referred to the Office of Community Standards. Please note that unless a complaint is turned in, no action can be taken.

---

**RESOURCES**

**Agreement, Risk Acknowledgement and Liability Waiver Contents**

By signing this agreement, I certify that I have read, fully understand, and agree to abide by the stated terms herein, and those of the Housing Agreement and the University Animal Policy and Guidebook. I agree to make myself aware of and practice appropriate animal care and understand the penalties for not following proper procedures and policy. I understand it is my responsibility to provide the required paperwork to Housing & Residential Life (i.e. vaccination, insurance, etc) as stated in the Animal Policy.

**Risk Acknowledgement:**

I acknowledge that this building, in which I voluntarily desire to reside in, is an Animal Friendly building that will include a variety of different animals to include; dogs, cats, fish, and domestic marsupials such as guinea pigs, hamsters, mice, etc. owned and under the care by either myself or other student residents. I understand and accept the risks associated with living in quarters with various types of animals that, despite policy and efforts of university staff, could involve occasional disturbances or incompatibility between animals, such as but not limited to: noise, odor, respiratory issues, infestation of fleas or ticks, animal-related infections, etc. as well as the possibility of injury to me or my own animal, and/or damages to my personal property. I acknowledge that said risks extend to the campus grounds and any designated Animal Friendly areas, including those that might have ‘dog park’ venues where animals are allowed to be unleashed.

I acknowledge that all students are expected to have health insurance while attending the University. I understand that should I become injured by my animal or the animal of another student, or should my animal cause injury to another person, I will be responsible for any associated medical costs.

**Assumption of Liability:**

I understand that it is recommended by the University that I obtain pet liability insurance, or if applicable, check my home-owners’ policy to see if this is included for my animal while living in a University residence. As a pet owner or animal trainer in a campus residential building, I accept full responsibility and liability for any damages or injuries that I or my animal may cause to any persons or property while residing in this animal friendly building and while utilizing the campus grounds or any designated animal friendly areas including ‘dog park’ venues.
Liability Release & Indemnification:
In accepting these risks and conditions, and for the opportunity afforded me to live in an animal friendly building and utilizing animal friendly areas of the campus grounds, I hereby release and hold harmless Stetson University, Inc., its faculty, staff, officers, trustees, representatives, chaperones, employees, volunteers, and agents from all manner of action and actions, cause and causes of action, suits, claims, or demands of an nature including personal injuries, damages, or property loss resulting from pets, service dogs in training, and living in an animal friendly building.

Local Animal Care Businesses
Stetson University does not endorse these businesses in any way, this list is only meant to be a resource for students.

Groomers
- Bark Avenue | 1041 East New York Ave Deland, FL 32724 | 386.279.0102 | *All Stetson students receive 10% off with ID and $5 off their first visit*
- Practical Puppy Dog & Cat Grooming | 718 E New York Ave DeLand, FL 32724 | 386.734.6090
- Head 2 Tail Grooming | 490 North Spring Garden Avenue DeLand, FL 32724 | 386.738.4494

Veterinarians & Emergency Care
If your animal exhibits any signs of illness, take the animal to a veterinarian immediately, to prevent other animals from getting sick.
- DeLand Animal Hospital | 1598 N Woodland Blvd, DeLand FL 32724 | 386.734.1802
  - Boarding available
- Spring Oaks Animal Care Center | 152 McGregor Road DeLand, FL 32720 | 386.736.6747
- Woodland Animal Clinic | 1501 South Woodland Boulevard DeLand, FL 32730 | 386.734.1763
- Newman Veterinary Center | 1301 E International Speedway Blvd, DeLand FL 32724 | 386.736.9711
  - Has a vet who provides care to exotic pets
  - Deltona location for emergencies, open until 1 AM Monday – Sunday | 386.860.5335

Animal Supply Stores
- Grrs & Purrs | 116 North Woodland Boulevard, DeLand, FL | 386.738.9997
- Walmart | 1699 North Woodland Boulevard, DeLand, FL 32720 | 386.734.4420

Local Dog Parks
- Barkley Square Dog Park | 1010 N. Ridgewood Ave, DeLand, FL | Free
- Gemini Springs Dog Park | 37 Dirksen Drive, DeBary, FL | Free
- Michael Crotty Bicentennial Park | 1800 N. Ocean Shore Blvd., Ormond Beach | Free
- Lighthouse Point Park | 5000 S. Atlantic Ave., Ponce Inlet, FL | Per Vehicle Cost $10
- Smyrna Dunes Park | 2995 N. Peninsula Ave., New Smyrna Beach, FL | Per Vehicle Cost $10

Note: Information in this manual is comprised by Stetson University officials along with research on and assistance from colleagues at Washington & Jefferson University, Eckerd College, and Principia College & Stephens College
