

technology

Understand and leverage technologies ethically to enhance efficiencies, complete tasks, and accomplish goals.

QUESTIONS TO ASK YOURSELF ABOUT YOUR TECHNOLOGY COMPETENCY

- Do I know how to evaluate the credibility of data and information gathered from research?
- Am I able to identify technology that will be needed in my chosen career field(s)? What steps have I taken to acquire skills in these technical areas? Have I learned to apply these skills in research, on the job, or community service?
- Am I aware of ethical and legal responsibilities associated with gathering and disseminating information in my chosen field(s)?
- Am I able to anticipate what technology will look like in the future? Are there things I can do now to be prepared for inevitable changes?

WAYS TO DEVELOP YOUR TECHNOLOGY COMPETENCY

THIS IS WHY YOU'RE TAKING GENERAL EDUCATION COURSES

___ Put extra effort into information and quantitative literacy assignments in your General Education courses; they are a great foundation for developing technology skills desired by employers

DON'T TAKE THE STETSON DUPONT- BALL LIBRARY FOR GRANTED

___ Learn how to effectively use Stetson's duPont-Ball Library research services

EVERY CAREER FIELD WILL REQUIRE TECHNOLOGY

___ A large majority of jobs will require organizing and making sense of massive amounts of data using technology; consider taking courses in business analytics, market research, computer science, statistics, or geographic information systems

WAYS TO BEGIN DESCRIBING A SPECIFIC EXAMPLE OF THIS COMPETENCY TO EMPLOYERS & GRAD SCHOOLS

- Effectively solved statistical, mathematical, financial, or computational problems using digital tools
- Researched, evaluated, and applied digital information and communication tools
- Learned new technology confidently and independently in the creation of original work
- Assessed sources of information for reliability and accuracy
- Used technologies responsibly, ethically, and legally
- Adapted digital tools for new purposes
- Kept up-to-date with evolving technologies and the digital landscape related to my field
- Understand and ethically resolve privacy, security, accessibility, and identity-management issues associated with the integration of digital literacy into my everyday life
