

The Cici & Hyatt Brown Hall for Health & Innovation

This 40,000-square-foot building connects to Sage Hall Science Center, creating a 120,000-square-foot science complex and allowing Stetson to expand its health and science programs at a time when student interest in these programs has skyrocketed.

Benefactors

[Cynthia \(Cici\)](#) and [J. Hyatt Brown](#) are University Trustees and longtime supporters of the institution. Hyatt Brown is chairman of Brown & Brown, Inc., and a former Florida Speaker of the House.

Academic programs

Brown Hall provides space for:

- Health Sciences
- Environmental Science and Studies
- Public Health
- Counselor Education
- Sustainable Food Systems

Amenities

Brown Hall offers:

- Environmental and health sciences labs
- GIS Computer Lab
- Greenhouse
- Center for Optimal Health across the Lifespan, with a Stress Management and Resiliency Training (SMART) Lab, Play Therapy classroom and Brain Fitness Academy
- Classrooms
- Teaching kitchen
- Outdoor classroom with garden space
