

Hulley Tower Naming Opportunities

Help us rebuild Hully Tower

Originally constructed in 1934, Hulley Tower is now a shell of its former self after being battered by multiple hurricanes in 2004 and taken down to its base a year later. In 2023, we launched an historic reconstruction effort to restore Hulley Tower to its former 116-foot height with a new 52-bell carillon at the top to ring out across campus. The former Eloise chimes will be incorporated into the reconstruction in other ways, paying homage to Hulley Tower’s place in our history.

Historical Memorial | \$2,000,000
Name on official, significant Hulley Tower Signage

Belfry | \$1,000,000
Large individual donor plaque

Water Bell* | \$150,000

Each bell will have a plaque with instructions as to the water bell's auditory and tactile features

**each (2 available)*

Bell in the Carillon* | \$50,000

Name will be inscribed on the bell and Donor Wall

**each (52 available)*

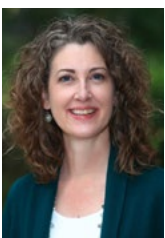

Name on Donor Wall | \$25,000

Minimum gift amount for name to appear on Donor Wall

Note: Images are for illustrative purposes only

Phase II

Phase II naming/gift opportunities are estimated to be available and at various giving levels in Spring 2024. They will include landscaping areas and features around Hulley Tower.

In addition to these opportunities, other Soul of Stetson funding opportunities exist campus wide. Stetson accepts multi-year pledges toward the Hulley Tower reconstruction, and gifts of cash, stock, IRAs and more.
