# JUST THE FACTS 2015-16

# NOT JUST SUCCESS BUT SIGNIFICANCE

# Change is Constant

The fact is – the only thing that remains constant is change. That sentiment has never been more true than it is today. We have seen more change in our lifetime than in any generation before us, and the university, anchored by its traditions and values, has prepared students for life in a changing world, for leading lives of significance.

At Stetson, the numbers are important – but what's really important are the students, faculty and staff behind those numbers. In fact, the *U.S. News & World Report* ranked Stetson one of the top five regional universities in the South in 2015 as well as denoting Stetson as a best value in higher education. Or maybe that's why Washington Monthly ranked Stetson 7th among 673 Master's Universities, while U.S. News ranked Stetson's College of Law number one in trial advocacy and number six in legal writing among all law schools.

This booklet is not just about "the facts." It is about gaining a sense of possibility, fulfilling potential and leading a life of significance.

# A Look Back

New York entrepreneur Henry A. DeLand, who played a leading role in establishing the city of DeLand in 1876, founded the university as DeLand Academy. Thirteen students started classes in a rented building in 1883. The following year, Mr. DeLand erected a building at the corner of Woodland Boulevard and Minnesota Avenue to house classrooms and administrative offices. That building, now known as DeLand Hall, is the oldest building in Florida to be used continuously for higher education. After experiencing financial difficulties in the late 1880s, Mr. DeLand found it impossible to support the university. He turned to Philadelphia hatmaker John Batterson Stetson, who had recently built a winter home in DeLand. Mr. Stetson provided much-needed funding for the new institution, and in 1887, John B. Stetson was elected to the university's Board of Trustees. In 1889 the institution was renamed in his honor.
