STETSONUNIVERSITY JUST THE JUS

NOT JUST SUCCESS BUT SIGNIFICANCE

What Really Matters

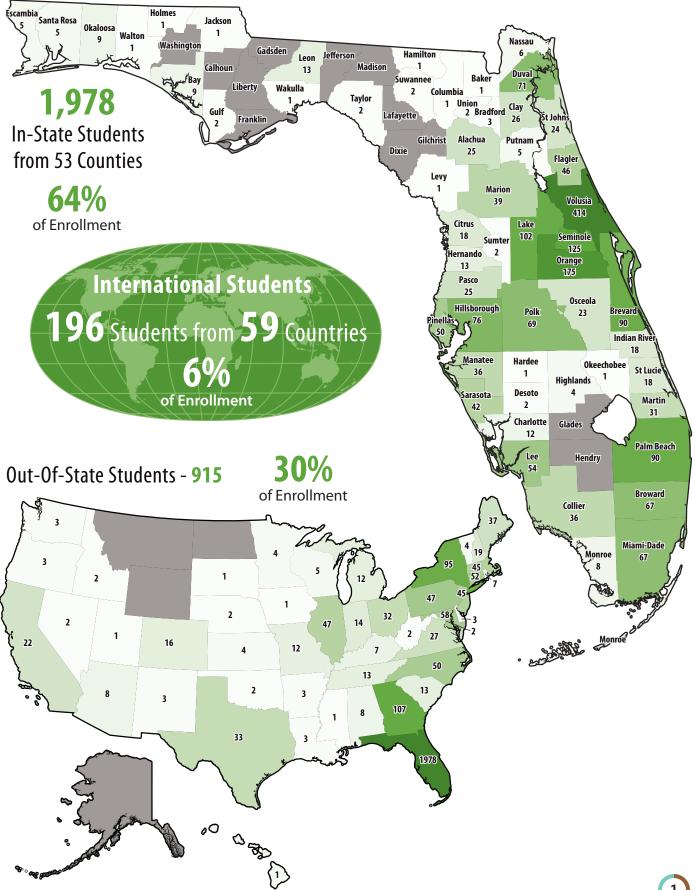

Numbers are important. They allow us to quantify progress. They show movement towards goals, effectiveness of strategic efforts and impact of investments. Numbers paint a clear picture of success.

Stetson's picture of success is quite impressive, but is incomplete without considering what is not easily captured by analytics. Beyond success, you will find students, faculty and staff striving to make a difference in a daring pursuit of significance. United by the desire to make our world a better place, we venture forward as a diverse and inclusive community striving for not just success but significance in all we do.

A Look Back

New York entrepreneur Henry A. DeLand, who played a leading role in establishing the city of DeLand in 1876, founded the university as DeLand Academy. Thirteen students started classes in a rented building in 1883. The following year, Mr. DeLand erected a building at the corner of Woodland Boulevard and Minnesota Avenue to house classrooms and administrative offices. That building, now known as DeLand Hall, is the oldest building in Florida to be used continuously for higher education. After experiencing financial difficulties in the late 1880s, Mr. DeLand found it impossible to support the university. He turned to Philadelphia hatmaker John Batterson Stetson, who had recently built a winter home in DeLand. Mr. Stetson provided much-needed funding for the new institution, and in 1887, John B. Stetson was elected to the university's Board of Trustees. In 1889 the institution was renamed in his honor.
