Transfer students	7%	24%	3%	14%	4%	16%	9%
<i>Age</i>							
Non-traditional (24 or older)	2%	8%	2%	8%	1%	8%	6%
Traditional (less than 24)	98%	92%	98%	92%	99%	92%	94%

<sup>a</sup> Response rate (number of respondents divided by sample size) is adjusted for non-deliverable mailing addresses, students for whom contact information was not available, and other students who were sampled yet unavailable during the survey administration.

<sup>b</sup> This report is based on information from all randomly selected students for both your institution and your comparison institutions. Targeted and locally administered oversamples (i.e., non-randomly selected students) are not included in this report.

<sup>c</sup> Sampling error is an estimate of the margin by which the *true* score for your institution on a given item could differ from the reported score. To interpret the sampling error, assume that 60% of your students reply "very often" to a particular item. If the sampling error is +/-5%, then the true population value is most likely between 55% and 65%.

<sup>d</sup> Percent of total respondents within each category. These results are *not* weighted.

<sup>e</sup> Institution-reported data. This information was used to weight your Mean Comparisons, Frequency Distributions, and Benchmark Comparisons reports.
