HAND AWARDS FOR DISTINGUISHED FACULTY ACHIEVEMENTS 2021 CALL FOR NOMINATIONS

The Dolly and Homer Hand Awards for Distinguished Faculty Achievements at Stetson University recognize and celebrate the accomplishments of outstanding faculty in community impact, and in research, creative, and professional activity. The recipients of these distinguished awards are announced annually at the Deland Campus Academic Awards & Recognition Ceremony and at Gulfport Campus' Honors and Awards Ceremony.

Nominations for Hand Awards for Distinguished Faculty Achievements are invited for consideration in either of the two categories below.

- (a) Hand Award for Research, Creative, and Professional Activity**
- (b) Hand Award for Community Impact**

Individual nominations or team nominations are invited. The total number of awards made will be determined by the quality of the nomination materials. Every effort is made to recognize faculty achievement in both categories; therefore, if nominees in the two categories are judged equally strong, an award in each category will be made. It is possible in some years for all awards to be made in the same category. At least one Hand Award each year is reserved for a deserving recipient from the College of Law.

HAND AWARD FOR RESEARCH, CREATIVE, AND PROFESSIONAL ACTIVITY

The Hand Award for Research, Creative, and Professional Activity celebrates the professional achievements of faculty at Stetson University. The award recognizes that faculty talent may be expressed in a variety of ways and that the criteria for determining excellence in different areas of scholarly inquiry or creative expression may vary. The Award emphasizes the quality of the research or creative activity, the significance of the accomplishment within the faculty member's field, and its contribution to the intellectual vibrancy and vitality of our campus. This Hand Award recognizes that excellence is to be found in innovative as well as traditional forms of scholarship; in work that contributes to the pedagogical discussion in a discipline or across disciplines as well as work that makes original contributions to knowledge; in work that redefines disciplinary knowledge as well as in work that reinforces it; and in major community outreach projects that demonstrate substantive disciplinary or interdisciplinary knowledge.

HAND AWARD FOR COMMUNITY IMPACT

The Hand Award for Community Impact celebrates the achievements of faculty serving the needs of the community, both the Stetson community and the community beyond the campus. An institution depends on its faculty to provide guidance to its students, expertise to its governance structure, leadership in its planning processes, and connections to the larger community. The Award recognizes that the life of a teacher is a life of service, service that goes beyond the classroom, service that takes inordinate time and energy. While service may at times seem to take faculty members away from their disciplines, it can become an important form of scholarly investigation, as when theoretical understandings are applied or tested in local communities. Academic service may also involve important leadership in disciplinary organizations at the regional, national, or international level. These kinds of service—to our academic community, to our surrounding communities and state, to our disciplines, to the world—are among our most important contributions to knowledge and our most impressive statements of our values commitments. Stetson University is pleased that this Hand Award honors the contribution, achievement and impact in service by our faculty.
