

**Student Organization Travel  
Personal Vehicle Acknowledgement**

Many opportunities exist at Stetson University where off-campus travel is required. For some of these opportunities, it may be required that students provide their own transportation to and from the destination. Unless specifically stated, Stetson University assumes no responsibility for transportation of students to or from the site. Students who choose to participate in these experiences will be responsible for all costs related to travel. No reimbursements for mileage will be considered unless requested and approved in advance.

Students are responsible for insuring their own vehicles with adequate public liability insurance protection. Students will not be reimbursed by Stetson University for any costs related to the off-campus experience including but not limited to collisions, moving violations, theft, or personal injuries. In the event of an accident, the vehicle owner's personal insurance provider shall be responsible and the owner shall be responsible for any deductible.

To avoid personal liability, trip sponsors are encouraged to arrange for transportation through licensed and insured companies. Rental vehicle options are available for smaller group transportation and is typically used for long distance and overnight travel. Charter services are recommended for large groups. Both of these options have the potential to reduce personal liability.

I acknowledge that I have read and understand the student transportation policies and agree to comply with all stipulations.
