Description of Site and Clients:

Interns primarily participate in individual counseling, with opportunities for couples and families as the need arises. Students will carry their own caseload, and make clinical decisions on recommendations for clients. As we are not dependent on insurance, interns can expect to develop long term therapeutic relationships with clients, as they help them navigate multiple goals over the course of treatment. Interns are responsible for the entire therapeutic process. From intake to treatment planning, case conceptualization and termination. Interns also participate in weekly staffing, which includes case presentation, supervision, and psychoeducation on various modalities, approaches or therapeutic tools.

Agency Contact's Phone Number: 407-423-3327 x106

Agency Contact's Email: dalee@eccflorida.org

Description of Site and Clients

Everyones counseling Center Inc. is a not-for-profit, interfaith group practice opened in 2015. ECC is made up of 23 Licensed or license, eligible therapists, a psychiatrist, and psychiatric nurse practitioner. We meet with clients ages three and up for family, couples, and individual counseling. We seek masters level students who have completed or nearly completed their coursework and are on track to be eligible for licensure in the State of Florida. Prospective Interns are interviewed twice a year in the spring (for Summer and Fall semester start) and November (for Spring semester start). It is our preference to work with Interns for a full year from their start date. Interested students are expected to learn the administrative side of the counseling business by working our front desk. This allows them to have hands on experience with an Electronic Health Record (EHR) and learn the full client experience. It is expected that students shadow at least two of our staff therapists for an initial assessment and a family, couple, and individual session before meeting with a client on their own. We expect student interns to participate in the activities of ECC quarterly staff meetings, weekly case staffing meetings, outreach events in the community, and holiday parties as they are able. Student interns are expected to schedule weekly supervision sessions with the clinical director at a mutually agreed upon time. Interested students should submit current resume, a copy of their liability insurance face sheet and a letter of interest that includes the following:

- They are a Stetson Student
- The degree they are seeking and their expected graduation date
- The name and contact information of their supervising professor(s)
- Their personal goals for their practicum and internship experience

It is our goal to provide students with a comprehensive practicum and internship experience. We look forward to meeting with you.

New Season is a leading provider of specialized quality care for Opioid Use Disorder (OUD), operating since 1986 with more than 80 addiction treatment centers in 20 states nationwide. We support the education and understanding of opioid addiction as a disease so that communities will support those affected by the disease to seek the help they need. In order to combat the opioid epidemic, we must all work together to lift the stigma of seeking treatment. Stigma has been a key barrier to patients entering treatment and staying in treatment for the time they need to heal their bodies, mind, and spirit. As a foundation, New Season aims to create a community where all work together to build a supportive environment where patients

can begin to feel whole again. At New Season, our recovery programs use the latest science to create a comprehensive plan for patients that include MAT, counseling, and medical services. The therapeutic programs are customized to the patients' needs and services are delivered in a way that respects the dignity, value, and self-worth of every individual. We are committed to each of our patient's success stories.

Description of Site and Clients

We primarily work with individuals who have experienced trauma. We also receive a substantial number of referrals for other concerns, including eating disorders, veterans, depression, and anxiety. A very high percentage of our clients are LGBTQ, and we frequently work with polyamorous families. LGBTQ and polyamory affirmative stances are expected of our providers and interns. MFT hours typically involve work with children and their families, or relationship counseling (most often with polyamorous relational systems).
