

**STATUS OF EXTERNSHIP AND CLINICS PLACEMENTS FOR SUMMER 2020
AS OF APRIL 20, 2020**

*This table will be updated as frequently as possible, no less frequently than weekly

Given the uncertainty related to COVID-19 we are hoping to provide you with some idea of available clinic and externship options available to you this summer semester. We have surveyed our placements to determine their ability to host students as clinic or externship students in some capacity this summer. The below table lays out by externship and clinic what capacity, if any, a given experience will operate this summer.

We understand that many externships and clinics have multiple placements, and that these placements within an externship or clinic may operate differently this summer. When you have questions or concerns about specific opportunities, please do not hesitate to contact:

[Professor Cerniglia or Ryan Hoyle](#)
