

From your main page, click on “TWEN.”

Now, even though I am in the “student” mode, you can still see the TWEN page.

You will need to click on the down arrow next to “Manage Courses.”
Click on “Add Course.”

You will find a screen similar to this one, but you will be able to see “2026 Advocacy Boards Tryouts,” as an option under “Stetson University.” (It is not seen on this screenshot because I am already enrolled in the course.) Find the course, “2026 Advocacy Boards Tryouts” in the list of courses, and “Add the Course.” (There is no password.)

Then you should be all set.
