Course Preferences

PLEASE READ: Based on your previous answer, you are eligible for the below courses. We encourage students to take a moment and browse each opportunity to fully understand the context of the experience before ranking your first choice. Next, choose your top three courses with "1" as your first choice. You may only select three. Our office tries very hard to place each student in their first choice and we will notify you before placing you in your second choice. You may view those courses you are ineligible for based on your stated prerequisites at the bottom of this page.

NOTE: Please research and understand the requirements for each course by clicking on the links below. Similar to other courses, externships and clinics are tuition and credit based opportunities. Once you are placed in a course, we expect students to commit to the experience. As a professional courtesy, we ask that students keep us informed throughout the application process if circumstances change and you are unable to commit.
