

"Our strong curriculum of CLE seminars and conferences continued in 2001. More than 25 topics were covered. Exciting programs scheduled for 2002 include seminars in higher education law, health law and pre-trial techniques in a medical malpractice case. A multidisciplinary, international program in northern Italy will take place in Summer 2002. We sincerely thank our alumni who served as speakers and attended our programs. We hope to see more of you in the coming year."
