Since 1987, MEMBERS Trust Company has provided trust and investment services to credit union members and private clients throughout the United States. Owned and managed by America’s credit unions, MEMBERS Trust Company abides by the management philosophy of our owners – to act in the best interest of our clients while fulfilling our fiduciary duty as a trust company. Formed through a cooperative alliance with credit unions across America, MEMBERS Trust Company embodies a new corporate mission for a professional trust and investment company as we operate for the benefit of members and clients, not individual stockholders. These credit unions, with over $80 billion in assets, provide MEMBERS Trust Company with its strategic values and underpin our strength as a national trust and investment firm. As a special purpose federal thrift, MEMBERS Trust Company is supervised by the Office of the Comptroller of the Currency, a federal banking regulator which charters and/or oversees national banks, federal savings banks and trust companies. As you might expect from a trust company owned by credit unions, the staff of MEMBERS Trust Company strives to apply the “Golden Rule” to the people behind each trust. We are committed to understanding the “whole story” and to never losing sight of the fact that someone’s loved one is relying on our care. Our team of professional advisors believe that their efforts can and do make a difference in the lives of our clients. Our owners would not tolerate anything less.
