### Supported Decision-Making

#### American Civil Liberties Union (ACLU):

American Civil Liberties Union (ACLU):

"Supported decision making (SDM) is a tool that allows people with disabilities to retain their decision-making capacity by choosing supporters to help them make choices. A person using SDM selects trusted advisors, such as friends, family members, or professionals, to serve as supporters. The supporters aprece to help the person with a disability understand, consider, and communicate decisions, giving the person with a disability the tools to make her own, informed, decisions."

- Effective:

  Canada/British Columbia

  Representation Agreement Act

  United Nations Convention on the Rights
  of Persons with Disabilities

  Australia, Ireland, Israel

  Sweden, Bulgaria, Croatia, Peru

  20+ states

## Supported Decision-Making

#### National Guardianship Association (NGA):

- Guardianship should be utilized only when lesser restrictive supports are not available.
- supports are not available.

  "guardianship must be limited, allow the maximum retention of individual rights, and be customized to the individual needs of the person under guardianship. Under all circumstances, efforts should be made to encourage every person under guardianship to exercise his/her individual rights. to the maximum extent of the person's abilities, in all decisions that affect him or her, to act on his or her own behalf in all matters in which the person is able to do so, and to develop or regain his or her own capacity to the maximum extent possible.

  Ever y guardianship should be focused on the person and grounded in demonstrating respect for the dignity of all involved.
- A guardian must understand and protect the rights of the person and utilize all the tools available to maximize the participation of the person and enable self-determination.

# Supported Decision-Making:

- Empowerment of person making the decision (Decider)
   "least restrictive alternative"
   assessment of all facets of a decision

  - less costly
     more person-centered planning opportunities
- Limit guardianship/conservatorship appointments

  "most restrictive"

  more costly

  O'Connor v. Donaldson, 422 U.S. 563 (1975): "a

  State cannot constitutionally confine, without
  more, a non dangerous individual who is capable
  of surviving safely in freedom by himself or with
  the help of willing and responsible family
  members or friends..."

## Supporter Decision Making Agreements

#### A SDM Agreement should:

- Be written in plain language and in a manner the Decider can understand (to include the use of illustrations when appropriate).
- Identify who will serve as a Supporter and outline their duties or expectations.
- Identify which areas wherein a Decider requests support including education, financial matters, health care, and domicile.
- Identify the kind of support the Decider is seeking. This might involve gathering information, assisting the Decider to weigh alternatives or potential consequences of their actions, communicating decisions to others, or to assist with financial decisions.
- Be executed consistent with the formalities required in the applicable state. For example, California requires the
  document execution to be in the presence of two witnesses or a notary public.
- Identify when the agreement needs to be reviewed and how it is terminated.

See Appendix C in paper for the Essential Elements of a SDM Agreement

## Conflict of Interest

- Occurs when any person (e.g., a fiduciary) is in a position to personally benefit from their actions made in their appointed capacity
- Putting own needs/desires ahead of beneficiary
- Self-dealing

• Seri-Gealing
Texas: "In order to prevent a conflict of interest, if a determination is made by an adult with a disability that the supporter with whom the adult entered into a supported decision-making agreement is the most appropriate person to provide to the adult support and services for which the supporter will be compensated, the adult may amend the supported decision-making agreement to designate an alternate person to act as the adult's supporter for the limited purpose of participating in person-centered planning as it relates to the provision of those supports and services." (TX Est Code § 1357.0525

California: "A supporter shall not participate in any life decision in which they have a conflict of interest. This includes, but is not limited to, any decision in which the supporter has a financial or other tangible stake in the outcome." (CA Welf. and Inst. Code § 21002(4))

11

## Liability

California: criminal or civil liability for breach "This division does not limit a supporters's civil or criminal liability for prohibited conduct against the adult with a disability, including liability for fraud, abuse, neglect, breach of fiduciary duty, if any exists, coercion, or mistreatment, including liability under the Elder Abuse and Dependent Adult Civil Protection Act." (CA Welf. and Inst. Code § 21002(a)

Texas: "If a person who receives a copy of a supported decisionmaking agreement or is aware of the existence of a supported decision-making agreement has cause to believe that the adult with a disability is being abused, neglected, or exploited by the supporter, the person shall report the alleged abuse, neglect, or exploitation to the Department of Family and Protective Services in accordance with Section 48.051, Human Resources Code. (TX Est Code § 1357.102

See **Appendix D in paper** for more information on Reporting Abuse, Coercion, Undue Influence or Financial Abuse

## Multidisciplinary Issues

SDM inherently involves multidisciplinary focus across social work, finance, criminal justice, psychology, fiduciary administration, public benefits, etc., to include consultations with:

- Social workers
- Geriatric care managers Geriatric care mana, Case managers Discharge planners Financial advisors CPAs Agents under POA Doctors

- TX Model Rule 1.05

  (a) "Confidential information" includes both "privileged information" and "unprivileged client information."

  (b) "...a lawyer shall not knowings"

  (1) Reveal confidential information of a client or a former client to:

  (a) a person that the client has instructed is not to receive the information or

  (ii) anyone else, other than the client, the client's representatives, or the members, associates, or employees of the lawyer's law firm."

  (a) A lawyer may reveal confidential information:

  (1) When the lawyer has been expressly authorized to do so in order to carry out the representation.

  (2) When the client consents after consultation.

  (3) To the client consents after consultation.

  (3) To the client of the client's representatives, or the members, associates, and employees of the lawyer's firm, except when otherwise instructed by the client."

13

## Multidisciplinary Issues

California: "A third party may only refuse the presence of one of more adults, including supporters, if the third party reasonably believes that there is fraud, coercion, abuse, or other action by the individuals requested to be included that the hird party is required to report pursuant to the Elder Abuse and Dependent Adult Civil Protection Act (Chapter 11 (commencing with Section 15600) of Part 3 of Division 9); Temphasis added] (CA Welf. and Inst. Code § 21004(c))

- many states recognize an exception to the presumption that a third-party presence invalidates the attorney-client privilege when a third person is present
- $attorney-client privilege \ continues \ to \ apply \ if \ that \ third \ person \ is \ there \ in \ order \ to \ assist \ the \ client \ in \ the \ legal \ process \ and \ furthers \ a \ defendant's \ legal \ representation$
- in determining if the presence of the Supporter compromises the attorney-client privilege, courts generally consider whether the defendant intended the communications to remain secret and the role of the third party

14

## Multidisciplinary Issues

- · Adult with a disability (Decider) resides in a trust-owned home
- Decider requires care support over and above what their Medicaid and waiver programs will furnish. Shortfall is being funded by the SNT
- Trust is being rapidly depleted (wasting)
  SNT trustee is forced to look at alternative housing solutions for the Decider and must sell the home to protect the beneficiary's long-term financial interests
- Decider and Supporter(s) are adamant that Decider remains in the home in consideration of the Decider's health, comfort and well-being

#### Potential Solutions:

- Petition court
   ADR
- Attorney letter of opinion
- Professional opinion letter
- Non-judicial Settlement Agreement

## Multidisciplinary Issues

#### Third Party Liability:

Texas: good dath standard imposed on 3rd parties - "a person who receives the original or a copy of a supported decision-making agreement shall rely on the agreement "and ".... is not subject to criminal or civil liability and has not engaged in professional misconduct for an act or omission if the act or omission is done in good faith and in reliance on a supported decision-making agreement." (TX Est Code § 1357.101)

New York: "A person shall not be subject to criminal or civil liability and shall not be determined to have engaged in professional misconduct for an act or omission if the act or omission is done in good faith and in reliance on a decision made by a decision-maker pursuant to a duly executed supported decision-making agreement created in accordance with this article." (State of New York Senate Bill 57107B, Cal. No. 540, 2021-2022 Sessions, June 1, 2021)

See Appendix E in paper for more information on Third Party Liability

  "the essence of the fiduciary relationship" (J.C. Shepherd,
  The Law of Fiduciaries 48I (1981))

#### Duty of Care/Prudence Act reasonably as any prudent person would

- assonably as any prudent person would Note: When someone has held themselves out as a professional in certain areas, a higher standard of care applies (esp. in litigation). "Diserve how [people] of prudence, discretion, and intelligence manage their own affairs, not in regard to speculation, but in regard to the permanent disposition of heir funds, considering the probable income, as well as the probable safety of the capital to be invested."

Duty to Account
Accountings/reportings to beneficiaries, remainder persons, interested parties, courts, public benefits agencies, etc.

### Types of Arrangements:

- SNT = spendthrift trust with trustee sole discretion
- SDM = promotes beneficiary independence

Preservation of public benefits is only one reason for an SNT:

- Undue influence
- Fraud protection
- Lack of beneficiary financial awareness
- Beneficiary may have never been self-reliant

Consider settlor intent and the need for flexibility!

#### Case Study:

- Settlors (parents) wish to enact a plan for their daughter.
- Their daughter was born with Down syndrome, but despite her challenges both parents want her to be as empowered as possible in making decisions about her own life.
- as possible in inalization, the Ownine. Their daughter is 19 years old, and rather than conserve her, the parents assisted their daughter to set up a Supported Decision-Making Agreement.

  Their daughter is easily influenced by others and is likely vulnerable to financial abuse.
- The daughter subsequently chose three close friends as her Supporters.
- SDMs and trustee are directed to design a distribution plan collaboratively
- Daughter initially makes inappropriate financial decisions
   "dignity of risk"

#### Trust Advisory Committee

- Promotes settlor intent and beneficiary involvement
- May weigh in on discretionary distributions
- May be tasked with development of distribution plan
- Supporters may act as part of Committee
   Best Practice: identify any conflicts of interest (e.g., remainderperson, housemate, etc.)

#### From Wealth Counsel:

From wealth Counse:

"The Trust Advisory Committee shall consist of a minimum of 3 members, but no more than 5 members to be determined by
the chairperson(s) then serving. If any member of the Trust Advisory Committee is unwilling or unable, for any reason, to act or
continue to act as a committee member, the chairperson(s) then serving may decide whether or not to fill the vacancy.
However, there shall be at least three (3) members serving at all times. If there are fewer than 3 members serving and the
chairperson(s) then serving are unable or unwilling to appoint a successor committee member, the Trustee may appoint the
successors."

## **Trust Protector**

- · Promotes settlor intent and beneficiary involvement
- May amend trust document for changes in law, public benefits, etc.
- May weigh in on discretionary distributions
- Supporters may act Trust Protector
   Best Practice: identify any conflicts of interest (e.g., remainderperson, housemate, etc.)

## From Bradley J. Frigon, JD, LL.M (tax), CELA, CAP:

From oradiety J. Frigon, Ju, LLM (taX), CELA, CAP:

"The Trust Protector may amend any provision of this Agreement, as it applies to any Trust for which the Trust Protector is serving, pursuant to [subsequent restrictions]. Notwithstanding the foregoing, the Trust Protector may not amend this Agreement in any manner that would make Trust corpus or income available to the Beneficiary for Medicaid eligibility. Further, the Trust Protector may not limit or alter the rights of the Beneficiary in any Trust assest held by the Trust before the amendment, nor may the Trust Protector remove or add any individual or entity as a beneficiary of any Trust assest."

| Trustee   | /Co-Trustee |
|-----------|-------------|
| 11 ustee. | CO-11 ustee |

- Promotes settlor intent and beneficiary involvement
- Sole authority for discretionary distributions
- Supporters may act Trustee/Co-Trustee
   o Best Practice: identify any conflicts of interest (e.g., remainderperson, housemate, etc.)

#### Case Study:

- Supporter Trustee is serving as trustee of an SNT and is not a remainderperson of the trust (thus obviating a potential
  conflict of interest).
   The SNT beneficiary needs an immediate emergency medical procedure and needs the Supporter to explain all facets of
  the procedure.

#### Case Law

- Third-party discretionary trust for the benefit of young man on the autism spectrum living in a group home

  Neither co-trustee (corporate co-trustee and attorney co-trustee) had visited beneficiary in five years.
- Court determined that Mark lacked any type of advocacy for his ongoing needs, save \$3,525 expended from the trust for a care manager. The vast majority of the distributions from Mark's trust were fees for the trustee and their counsel.
- Trustee's Texuse for inaction was its lack of institutional capacity to ascertain or meet the needs of this severely disabled...young man."

  Trustee's Tailure to fulfill their obligations should result in denial or reduction of their commissions for the period
- of inaction."
