

Clinical Programs

- A. General:** Members of the second- and third-year classes may become eligible to participate in one or more of the College's practice-based clinics. Such individualized practical experience gives the student a sense of professional responsibility that is indispensable to successful law practice.

- B. Approved Clinics:** All currently approved clinics are listed in the Course Catalog on the Registrar's page on the Stetson internet site.

Faculty policy revised May 5, 2010.
