The calendar year MOOP applies to pharmacy and medical claims. Each individual family member must meet the individual MOOP unless the family MOOP has been met by any two or more covered family members. Once met, your covered prescriptions are paid at 100%. Generic Dispense as Written policy does not apply to the MOOP.

Specialty Medications

Specialty medications are high-cost drugs that are often injected or infused and require special storage and monitoring. These medications may be obtained through Caremark specialty pharmacy by calling Caremark at 1.800.237.2767 or Publix specialty pharmacy by calling 855.797.8254. Members may also bring their specialty prescriptions to either CVS or Publix retail locations. A limited number of additional providers may administer and dispense a subset of covered specialty medications. Some exceptions apply. These medications are limited to a 1-30 day supply. Specialty medications largely fall into the formulary brand category but could also fall into the biosimilar or generic specialty drug category. These medications are subject to the appropriate co-insurance as listed below. Specialty Pharmacies may offer pharmaceutical care management services designed to provide you with assistance throughout your treatment.

Retail and Mail Order Pharmacies

Stetson University participates in the Caremark pharmacy network. Contact RxBenefits Member Services at 1.800.334.8134 to inquire about a specific pharmacy.

Manufacturer Copay Assistance Program (MCAP)

Some specialty medications may qualify for third-party copayment assistance programs which could lower your out of pocket costs for those products. For any such specialty medication where third party copayment assistance is used, you will not receive credit toward your maximum out of pocket or deductible for any copayment or co-insurance amounts that are applied to a manufacturer coupon or rebate. Your employer has elected to enroll in Caremark's True Accum + PrudentRX program(s).

PrudentRx

Specialty medications are used to treat complex chronic conditions; they mimic compounds found within the human body. These high-cost oral or injectable medications are typically biology-based and highly complex. Stetson University is offering the PrudentRx Co-Pay program to help you manage the cost of these medications by applying financial co-pay assistance from drug manufacturers. By enrolling in the PrudentRx program, your out-of-pocket costs for covered medications would be \$0.

Please contact PrudentRx at 888.203.1768 so a patient advocate can assist you with completing your enrollment.

Generic Policy - Dispense As Written (DAW)

If your doctor writes a prescription stating that a Generic may be dispensed, we will only pay for the Generic drug. If you choose to buy the Brand name drug in this situation, you will be required to pay the Brand copay/coinsurance plus the difference in cost between the Generic and Brand name drug. The Generic Policy does not apply if your doctor requires a brand name medication.

Maintenance Drug

A medication that is used for chronic health conditions on an ongoing or long-term basis (e.g., antihypertensive medication taken daily to control high blood pressure).

Preventive Medications

Your employer's plan is subject to the Affordable Care Act (ACA) which requires the coverage of a number of preventive items and services at 100% and ensures these items and services are not subject to deductibles, maximum out of pockets, or other limitations such as annual caps or limits. You may contact RxBenefits Member Services at 1.800.334.8134 if you have specific drug questions or register at caremark.com to check drug costs and coverage.

Compound Drugs

For compound drugs to be covered, they must satisfy certain requirements. In addition to being medically necessary and not experimental or investigative, compound drugs must not contain any ingredient on a list of excluded ingredients. Any denial of coverage of a compound drug may be appealed in the same manner as any other drug claim denial under this coverage. Compounded medications equal to or exceeding \$300 per script will require prior authorization.

High Dollar Claim Review, Prior Authorization and Appeals program (HDCR)

Medication costs exceeding \$1,000 per 30-day supply and \$3,000 per 90-day supply require prior authorization.

Low Clinical Value Drug List (LCV)

Separate formulary exclusion list including low clinical value drugs, me too/chemically similar drugs, new to market drugs, and non-essential.

Formulary

A list of Food and Drug Administration (FDA) approved Prescription Drugs and supplies developed by a Pharmacy and Therapeutics Committee, and/or customized by Caremark or RxBenefits. This list reflects the current clinical judgment of practicing health care practitioners based on a review of current data, medical journals, and research information. In your prescription drug coverage, the Formulary Drug list is used as a guide for determining your costs for each prescription. Drugs not listed on the Standard with ACSF Formulary may not be covered. Your formulary is Standard with ACSF.

The following lists are not all-inclusive, but rather are lists of the most commonly used prescription drugs. These lists are subject to change. The Caremark formulary provides an up-to-date list of medications that may be covered by the program. The Caremark formulary may be found online at [caremark.com](https://www.caremark.com). You may also contact RxBenefits Member Services at 1.800.334.8134 to learn whether a specific drug is covered.

Covered Drugs and Supplies

The following examples of Covered Drugs and supplies may be available with your prescription benefit coverage. FDA-approved pharmaceuticals requiring a written prescription, issued by a licensed physician, dentist, osteopath, podiatrist, optometrist (licensed professionals) or licensed advance practice certified nurse and dispensed by a licensed pharmacist. Please contact RxBenefits Member Services at 1.800.334.8134 if you have specific drug questions or register at [caremark.com](https://www.caremark.com) to check coverage.

Covered Drug Limitations

Certain Prescription Drugs are covered up to preset limits. These limits are based upon standard FDA approved dosing for the medications. If you request that a prescription be filled for a drug that is subject to quantity limitations, the prescription will be filled up to the preset limits. In some cases, it may be medically necessary for you to exceed the preset limits. In those instances, Prior Authorization is required. In such cases your doctor may initiate Prior Authorization by calling RxBenefits toll-free at 1.800.334.8134. Many drugs are subject to quantity limitations for patient safety based on FDA guidelines. Your plan has identified the following drug categories for Quantity Limits.

- Anti-Influenza Agents
- Anti-Nausea Agents
- Diabetic Test Strips
- Erectile Dysfunction (ED) Agents
- Migraine Agents
- Opioid Analgesics
- Sleep Agents
- Topical Anesthetics

For more information about specific drugs subject to coverage limitations, please call RxBenefits Member Services at 1.800.334.8134 or visit [caremark.com](https://www.caremark.com).

Prior Authorization and Appeals

If a prescription drug claim is wholly or partially denied, you or your authorized representative has the right to appeal the decision. You or your authorized representative may appeal the denial no later than 180 days after receiving notice of an adverse claim decision. Appeals of prescription drug claims are handled by RxBenefits and are decided in accordance with the terms of the plan document. Following a clinical review, one of four actions will occur: the medication is approved, the medication claim is denied, the doctor may decide to withdraw and prescribe a different medication, or the reviewer can dismiss the claim due to lack of communication from the prescriber. If denied, the appeal process is available. Your prior authorizations are handled by RxBenefits.

The following medications may require a prior authorization under your plan:

- Acne Topical Agents
- ADHD Medications
- Anti-Fungals
- Anti-Infective Agents
- Anti-Ulcer Medications
- Antiviral Agents
- Diabetic Agents

- Migraine Agents
- Narcolepsy Medications
- Opioid Analgesics
- Specialty Medications
- Testosterone
- Topical Antihistamines
- Topical Anti-Inflammatories

Discount Program

Cost Saver (CVS): Your employer is offering a seamless point of sale discount powered by GoodRx on non-specialty generic drugs at retail. If available for your medication, this discount will be applied with no action from you, and be captured as part of your benefit.

The Appeal Process

If denied, the member may appeal the decision. Upon appeal, a second pharmacist reviewer will evaluate the prior authorization and make a decision (approved/denied). If denied a second time, a final appeal may be made, which is forwarded to an outside medical reviewer. If denied, there are no further appeals.

Your doctor may initiate the Prior Authorization, quantity limit, high dollar claim review or any other rejection process by calling RxBenefits at 1.800.334.8134.

Definitions:

Co-Insurance

The percentage of charges a Participant is required to pay for covered prescription drugs.

Copayment (Copay)

The specified charge you are required to pay for a Covered Drug.

Brand-Name

A Prescription Drug that is protected by a patent, supplied by a single company and marketed under the manufacturer's brand name.

Generic Drug

A generic drug is identical to a brand name drug in dosage form, safety, strength, route of administration, quality, performance characteristics, and intended use. Although a generic drug is chemically identical to its branded counterpart, it is typically sold at substantial discounts from the branded drug's price.

Over-the-Counter Drug (OTC)

Any medical substance that can be purchased without a prescription. OTC medications are not covered by your plan unless otherwise stated.

Non-Preferred Brand

Non-Preferred Brand is a Brand Name prescription drug that does not appear on the formulary of Brand Name Drugs designated by Caremark as Preferred. Members may pay a higher cost for Non-Preferred Brand-Name Prescription Drugs than for Preferred Brand-Name prescription Drugs.

Preferred Brand Drug

Preferred Brand Drug is a prescription drug that appears on the formulary of Brand-Name Prescription Drugs designated by Caremark Preferred. This list is subject to periodic review and modifications by Caremark. Members may obtain a copy of this list by contacting RxBenefits Member Services at 1.800.334.8134 or by registering on [caremark.com](https://www.caremark.com). Members pay a lower copay/co-insurance for Preferred Brand-Name Prescription Drugs than for Non-Preferred Brand-Name Prescription Drugs.
